

There's a pioneer in all of us.

CTA IS SEEKING A DESIGN PROFESSIONAL

KALISPELL, MT

CTA in a nutshell:

CTA was founded on the promise of an integrated and collaborative design approach. For the last 80 years, our team of architects and engineers have combined intellectual forces to carry out one, simple mission: devise thoughtful and elegant design solutions for our clients.

Ready to create with us?

Architectural design at CTA:

CTA is seeking a creative and collaborative Design Professional with 0-5 years of experience and a NAAB accredited degree. You will join a diverse team in a welcoming, creativity-driven environment that values sustainability and environmentally responsible practices in our design thinking. As a Design Professional at CTA, you will have a unique opportunity to work on projects in Montana and throughout the United States. You should be enthusiastic and excited by complex projects, sharpening your design skills, and a fast-paced work environment. You will be called upon to support architectural work in partnership with talented architects, interior designers, engineers, and professionals across our 14 offices. Our creative process engages our high profile clients and our project teams in achieving highly integrated and successful design solutions.

What we expect you can bring to the table:

- Desire to collaborate on architectural design, project development, construction documents, and construction administration
- Strong organizational and communication skills
- Excellent design skills and strong technical proficiency including experience working in the following platforms: Revit, AutoCAD, SketchUp, and Adobe Creative Suite

We take care of our own:

Our mountain-region roots have shaped both our client relations and our work ethic. We're the heads-down-but-have-fun, people-before-projects kind of firm. We encourage our team members

to set big goals, but keep ego out of the office and prioritize an inclusive, supportive, and collaborative work environment.

In Kalispell, our office is located in the heart of downtown, close to incredible restaurants and craft breweries. Also nearby are Flathead Lake, two ski areas and beautiful Glacier National Park; what's not to love? And once you get here, we want to see you succeed! That's why we also offer educational and advancement opportunities and are committed to the continuing education and mentorship of all our team members.

Our client-first character starts from within. This position offers a benefits package including production bonuses, medical/dental/vision/life insurance, 401(k) retirement plan with an employer match, holiday and paid time off and an evolving wellness program.

“CTA is announced as Intermountain Design Firm of the Year.”

– ENR (Engineering News Record): 2016
